

Celebrating 25 Years of Excellence

Twenty-five years ago, International Proactive Security, Inc. was founded on a simple yet powerful premise: to provide unparalleled protection through foresight, professionalism, and unwavering dedication. Today, as we celebrate our silver anniversary, we reflect on a quarter-century of growth that has transformed IPS into a trusted leader in the private security industry. From our roots managing local operations to securing premier multi-family residential complexes, 5 Star Luxury Hotels, Class A multi-tenant properties and commercial hubs, our journey has been defined by a commitment to setting the gold standard in asset protection and peace of mind.

Reaching this 25-year milestone is a proud testament to the incredible clients who have trusted us as their first line of defense. As the security landscape has evolved, our partnership has motivated us to continuously elevate our standards, refine our operations, and deliver the elite, proactive protection our clients deserve.

Let's not forget who's behind every successful site and secured perimeter; the true heartbeat of IPS: our exceptional personnel; we view our personnel as the most valuable asset. We could not be more fortunate to have the finest professionals in the industry, whose daily vigilance, discipline, and commitment to execution bring our mission to life every day.

Looking ahead, we view this anniversary as a launching pad for the future. IPS will continue to innovate, leverage precision training, and adapt to meet the next generation of security demands. Thank you for being a part of our story as we continue to lead with integrity and protect with distinction.
